Bangladesh is full of many problems. Some problems are big and some are small.is a big problem in our country. It is increasing day by day. It is beyond our control. It is making other problems in our life. It is a curse for us. We have to overcome this problem at any cost. People want to lead a happy and peaceful life. Every problem has some reasons. It has some reasons. Most of the people of our country are illiterate and poor. The illiterate people are good for nothing. They are unconscious. They are responsible for this great problem. They do not try to remove this problem. Rather, they increase this problem. It is a big obstacle to the progress of our country. The government is very worried about this. It has many negative results. For this great problem, our country cannot prosper. People are suffering a lot. They want to get peace. We know that every problem has a solution. We have to find the causes of this problem. We have to think how we can remove this. Only the government cannot solve this problem. We must help our government in this matter. Public awareness is very essential to remove it. The government should give punishment to the people who are responsible for it.
